museumvictoria.com.au/collections

Search the Victorian State collections for individual items, images and stories or browse by themes, locations or topic such as Migration and Transport.

Melbourne Story

museumvictoria.com.au/melbournestory

Explore Melbourne's unique and changing story. Be immersed in evocative stories and discover the icons and personalities that have shaped Melbourne through images, objects and education resources.

Encounters

museumvictoria.com.au/encounters

A history of Aboriginal people in Victoria and the impact of the British invasion and colonisation of Australia. This site includes case studies and focus questions for students.

Melbourne's Biggest Family Album

museumvictoria.com.au/bfa

A virtual album of thousands of photographs, dating from the 1870s to the 1950s. The Biggest Family Album also includes ideas for researching historic photographs in the classroom and student worksheets are provided.

Talking Faiths

museumvictoria.com.au/talking-faiths

A collaborative project that supports intercultural and interfaith dialogue in communities and schools using migration stories as a bridge.

Australia's Federation

museumvictoria.com.au/federation

In May 1901 our first Federal Parliament was opened in the Royal Exhibition Building. View contemporary photographs and memorabilia.

MVteachers

museumvictoria.com.au/education/mvteachers

Teachers can receive free entry to Melbourne Museum, Immigration Museum and Scienceworks, as well as invitations to professional development and gallery previews, by signing up to our monthly online newsletter.

Science @ Museum Victoria

Biodiversity Snapshots

www.biodiversitysnapshots.net.au/

An environmental monitoring website and mobile application enabling students and the public to participate in citizen science as they use the field guide to identify species, record observations, analyse and share results, including uploading them to ClimateWatch.

Forest Secrets

museumvictoria.com.au/forest/

Explore the natural and cultural heritage of Victoria's tall timber forests. The website has a range of resources, as well as P-12 classroom activities.

Dynamic Earth

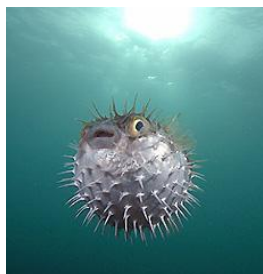

museumvictoria.com.au/dynamicearth

Discover the wonderful variety of minerals that exist and how modern society relies on many of these minerals for the construction of our cities and for power, transport and communications.

Marine

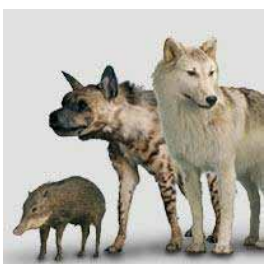

museumvictoria.com.au/marine/

Dive in and explore Museum Victoria's many marine-related resources online, including images, information, exhibitions, news, events and activities.

Wild

museumvictoria.com.au/wild

Explore the diversity of the world's creatures and how they are affected by climate change and human activity. Learn more about what you can do in your local area. Play the *Wild Environments* game.

600 Million Years

museumvictoria.com.au/600-million-years/

past.

Discover how Victoria has evolved over millions of years through changes in plant and animal life. Explore geological time periods. See videos of experts reconstructing the

Dinosaur Walk

museumvictoria.com.au/dinosaur-walk

Engage in illustrated facts and fun activities based on seventeen prehistoric skeletons and palaeontology research, with a virtual exhibition to explore.

Caught & Coloured

museumvictoria.com.au/caughtandcoloured/

Explore Frederick McCoy's great project which describes the fauna from the colony of Victoria. Original drawings and manuscripts bring to life the extraordinary changes the Victorian environment has undergone in this time.
